

ZERO Oil Imports By 2025 **www.aerohybridpower.com**

Aero Hybrid Power & Environmental Systems - 9145 Kopping Ln. – Hickory Hills, IL 60457 - 708-599-6140

Prius Plug In Upgrade

- Enables lower and middle income drivers to benefit from plug in capability and better fuel economy
- Flexible systems enable dual use without restrictions and range issues
- Available for 2003 Gen 1 Prius or Gen 2 Prius
- Can be customized for other Hybrid Vehicles
- A special NiMH Charging System
- A 4 to 6 KWH Lithium Iron Phosphate Battery Pack
- Larger packs can be used but suspension upgrade is needed
- Charging System, Converter & BMS
- Engine Clean+Flush and oil additives increase fuel economy & engine life
- Can use high alcohol (ethanol, methanol, butanes or natural gas liquids) content fuels as well as used motor oil blended into the fuel in small amounts without any vehicle or engine modifications
